

JEREMY PORTER

2024 Bio/One-Sheet

Jeremy Porter is a Detroit, Michigan-based guitarist, singer/songwriter, and producer. He's best known for fronting his Detroit Rock and Roll band **Jeremy Porter and The Tucos**, and touring **solo-acoustic** between Tucos' album cycles. JP&T have toured the US, Canada, and the UK extensively, released 4 albums, and opened for the likes of everyone from Soul Asylum, Cracker, and American Aquarium to Lydia Loveless, Supersuckers, and Jesse Malin.

As a solo-artist, Jeremy strips his songs down to the bone, with an acoustic guitar and a voice, which lends itself perfectly to listening rooms, breweries, dive-bars, music-friendly grills, and small theatres. He's played `em all and then some, balancing the entertainment/audience aspect with the craft of songwriting and performance, adjusting as he goes to fit the mood of the room.

Jeremy was raised on the shores of Lake Superior in Michigan's Upper Peninsula where he absorbed the music of his parents' record collection – **Beatles/Stones**, Jim **Croce**, Gordon **Lightfoot**, and Fleetwood Mac. He soon fell hard into the songs of Paul **Westerberg**, Joe Strummer, Bob Mould, and the punk bands in those scenes. After moving to the Detroit area, he broadened his horizons with a deep dive into the music of **Gram Parsons**, Johnny Cash, Dwight Yoakam, and the early-wave of alt-country bands like **Uncle Tupelo**, Bottle Rockets, and Whiskeytown. His style is an amalgamation of this melting pot – upbeat and fun, energetic and melodic, but sometimes whiskey-bent and heartbroken too. There's something for everyone in a Jeremy Porter solo-acoustic set.

In 2024 Jeremy Porter will release his first full-length solo-album since 2010's *Party of One* (Magwheel Records). **Dynamite Alley** will be released on **GTG Records** digitally, on compact disc, and on vinyl in September. The album features contributions from members of the **Drive-By Truckers**, **The Wild Honey Collective**, **Orbitsuns**, and **The Stuntmen**, among others. Jeremy will be out supporting the album in the fall across Canada and the midwestern and Pacific Northwest/western US.
